

InstaCoustic Launches 'Guaranteed Acoustic Solutions'

An absolute assurance that you will meet the requirements of Approved Document E

With its Guaranteed Acoustic Solutions package, InstaCoustic will guarantee to complete the Pre-Completion Testing (PCT) process for compliance with Approved Document E of the Building Regulations or we will implement remedial action at our own cost.

The nature of noise is such that few projects are identical. Mistakes can be costly, making it difficult to manage budgets and timeframes.

To help you to avoid the uncertainty, risk and potentially significant liability involved with acoustic insulation, Instacoustic has introduced a guaranteed route to Approved Document E.

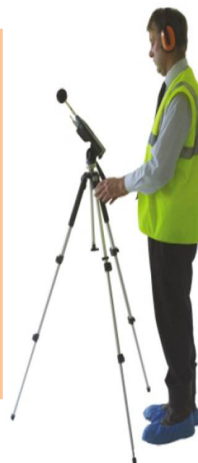

The offer gives you the peace of mind that comes with knowing your acoustic solutions will be within budget and meet the building requirements.

or call our sales office on 0118 973 9560

Guaranteed Acoustic Solutions

includes a 10% test sample with UKAS approved sound test results demonstrating compliance with Approved Document E. This service eliminates construction liability in connection with meeting the PCT process within Approved Document E standards.

The benefits to you:

- Allows flexibility of design
- Ensures consistency – manufacture, supply and installation, all from InstaCoustic
- Guides you through the PCT compliance procedures
- Also applies to 'rooms for residential purposes' i.e. hotels, student accommodation, nursing homes, etc
- Provides independent UKAS sound test with reports
- Provides proof of performance
- Ensures no remedial costs due to failure
- Eliminates construction liabilities associated with compliance procedures under Approved Document E
